

From ancient times up to modern, anti-semitism has never permanently ceased. It just becomes latent for a period of time but then again emerges like filth that has been sunk in a dirty sewage suddenly appearing on a surface once more to remind us of a garbage still remaining among us people. Garbage that should have been already cleansed long before in order for human civilization to prosper as a unity of men.

Recent terrorist activities in the Middle East prove my words without any doubt.

As well as: Munich massacre 1972., New York wrecking 2001., Boston marathon bombing 2013., London severing 2013., Charlie Hebdo shooting 2015., Cologne sexual attacks 2015/16, Berlin Christmas killings 2016., etc.... The list of atrocities beyond comprehension goes on and on.

How long is this road?

Where is an end of the suffering committed by religious fanatics?

Domestic undeveloped minds, due to their illiteracy or ignorance, (in)directly support Islamic jihad while Arab capital buys sympathies from naive or corrupted Western politicians. The outcome is that militants freely drive across the Europe carrying automatic weapons while stabbings and intentional vehicle hits have become an everyday threat. Illegal immigrants pour down in millions, violently crossing borders. Entire districts are Muslim owned.

There is a very interesting fact I noticed. Overall number of Jews in Western world constantly declines, mostly because of the pogrom and holocaust, whereas overall number of Muslims significantly increases. Contributing factor is anti-jewish propaganda like "The Protocols of the Elders of Zion", a blatant forgery of the truth. The real truth is that free market is open to everyone regardless of his or her race, nationality and faith.

Anti-semitism is anti-humanism.

Love is my answer.

As poet Jose Marti wrote "I cultivate a white rose", I personally cultivate the

hope that reason will prevail in despite of all obstacles. Hatred is unsolicited, discrimination uninvited.

I call my brothers and sisters: black and white, Asian and Indian, Jews and Muslims, Christians and Buddhists, rich and poor, straight and homosexual, healthy and sick, old and young, female and male to build a society of mutual understanding and tolerance where agreement through dialogue between conflicted sides is an only mean of global prosper and wellbeing for every and each individual or group not just those with the power but vulnerable and weak as well.

I stand with Israel! Do what you have to do to ensure future peace of the region and protection of an innocent.

God have mercy on our souls cause we have sinned too much!
